**Subject:** Conversation between murdock.james@epa.gov and robinson.jeffrey@epa.gov

murdock.james@epa.gov [7:42 PM]:

Jeff on that FOIA, would it be appropriate for us to be the lead on the portion about "Texas Commission on Environmental Quality proposed, revised, or final Ethylene Oxide Carcinogenic Dose-Response Development Support Document?"

robinson.jeffrey@epa.gov [7:45 PM]:

Yes, that's okay. If I remember correctly we made a decision to comment formally as an Agency. If we have documents, the majority may be internal deliberative, although there might be emails where we asked the state about the status for their efforts.
